

CAPABILITIES STATEMENT

ABOUT US

The Cybrix Group, Inc. ("Cybrix" for short) develops innovative technical solutions and consults on critical Information Technology (IT) programs. We provide Research, Development, Test and Evaluation (RDT&E) as well as design and manage custom solutions ranging from command and control (C2) systems to highly integrated, classified networks.

Our team is comprised of military veterans and we leverage our experiences gained in service to build secure technologies for government agencies and provide catered, innovative technology for warfighters.
